

BUILDING **A LEGACY**
OF TRUST SINCE 1970

BUILDING **YOUR FUTURE** ON THE STRENGTH OF OUR PAST

Our vision is to provide high quality and value added services to the Oil & Gas, Marine & Offshore, various onshore infrastructures and manufacturing industries. We are dedicated to enhancing our offerings by investing in cutting-edge technology solutions. By building upon our rich heritage of quality and trust, we strive to enrich lives and drive innovation in the construction industry

Rupchand Shewakramani

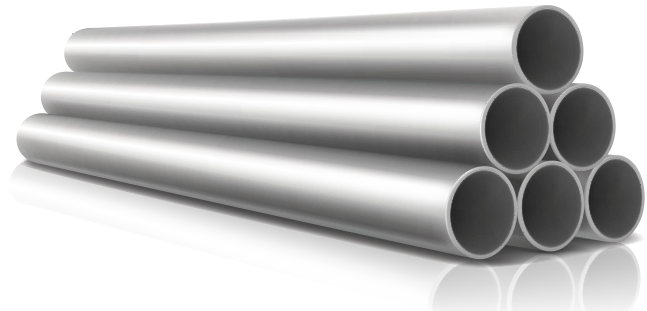

Found by the late Udharam Shewakramani and current Chairman, Mr. Rupchand Shewakramani in the year 1970, shortly before the formation of the UAE, DBMSC is a name that has progressed with the nation.

Our steel products are world-class, meeting the highest international standards. Our extensive marketing network ensures the highest levels of customer satisfaction. With focus on procurement, project management, on-time delivery, and an outstanding distribution network, we take pride in delivering exceptional services to esteemed corporate giants within the region. Our long-standing mill support enables us to supply fully certified steel products at the most comprehensive prices. Our commitment and technological innovation are backed by our experience, knowledge, and expertise, which enables us to deliver value at every stage of a project, from the initial idea through specification, design, progress, and delivery.

Our core values define who we are and what we achieve together as a team. All our actions bear the seal of our values, and that is the reason why all our stakeholders put their trust in us.

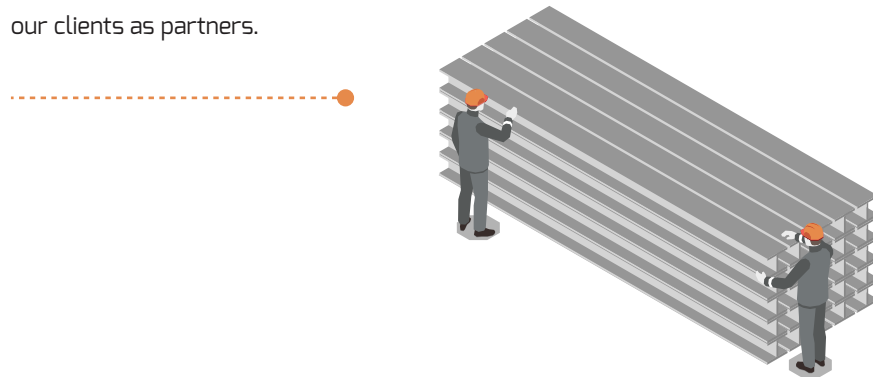

COMMITMENT
INTEGRITY
TRUST
RESPONSIBILITY
MUTUAL RESPECT

Our growth has been undoubtedly due to the ongoing patronage of our clientele and business partners and, above all, to the passionate and tireless hard work of our people, the backbone of our organization. Without these qualities in our human capital, we wouldn't have enjoyed the growth DBMSC STEEL enjoys today.

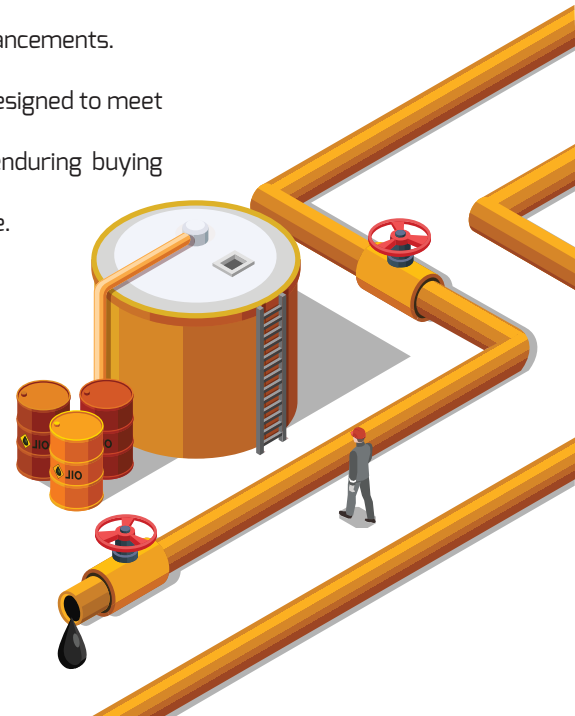

We pride ourselves on being a company that prioritizes our clients' needs with best-in-class service and care. We stick to our commitments and always keep the clients' satisfaction as our main objective. We think of our clients as partners.

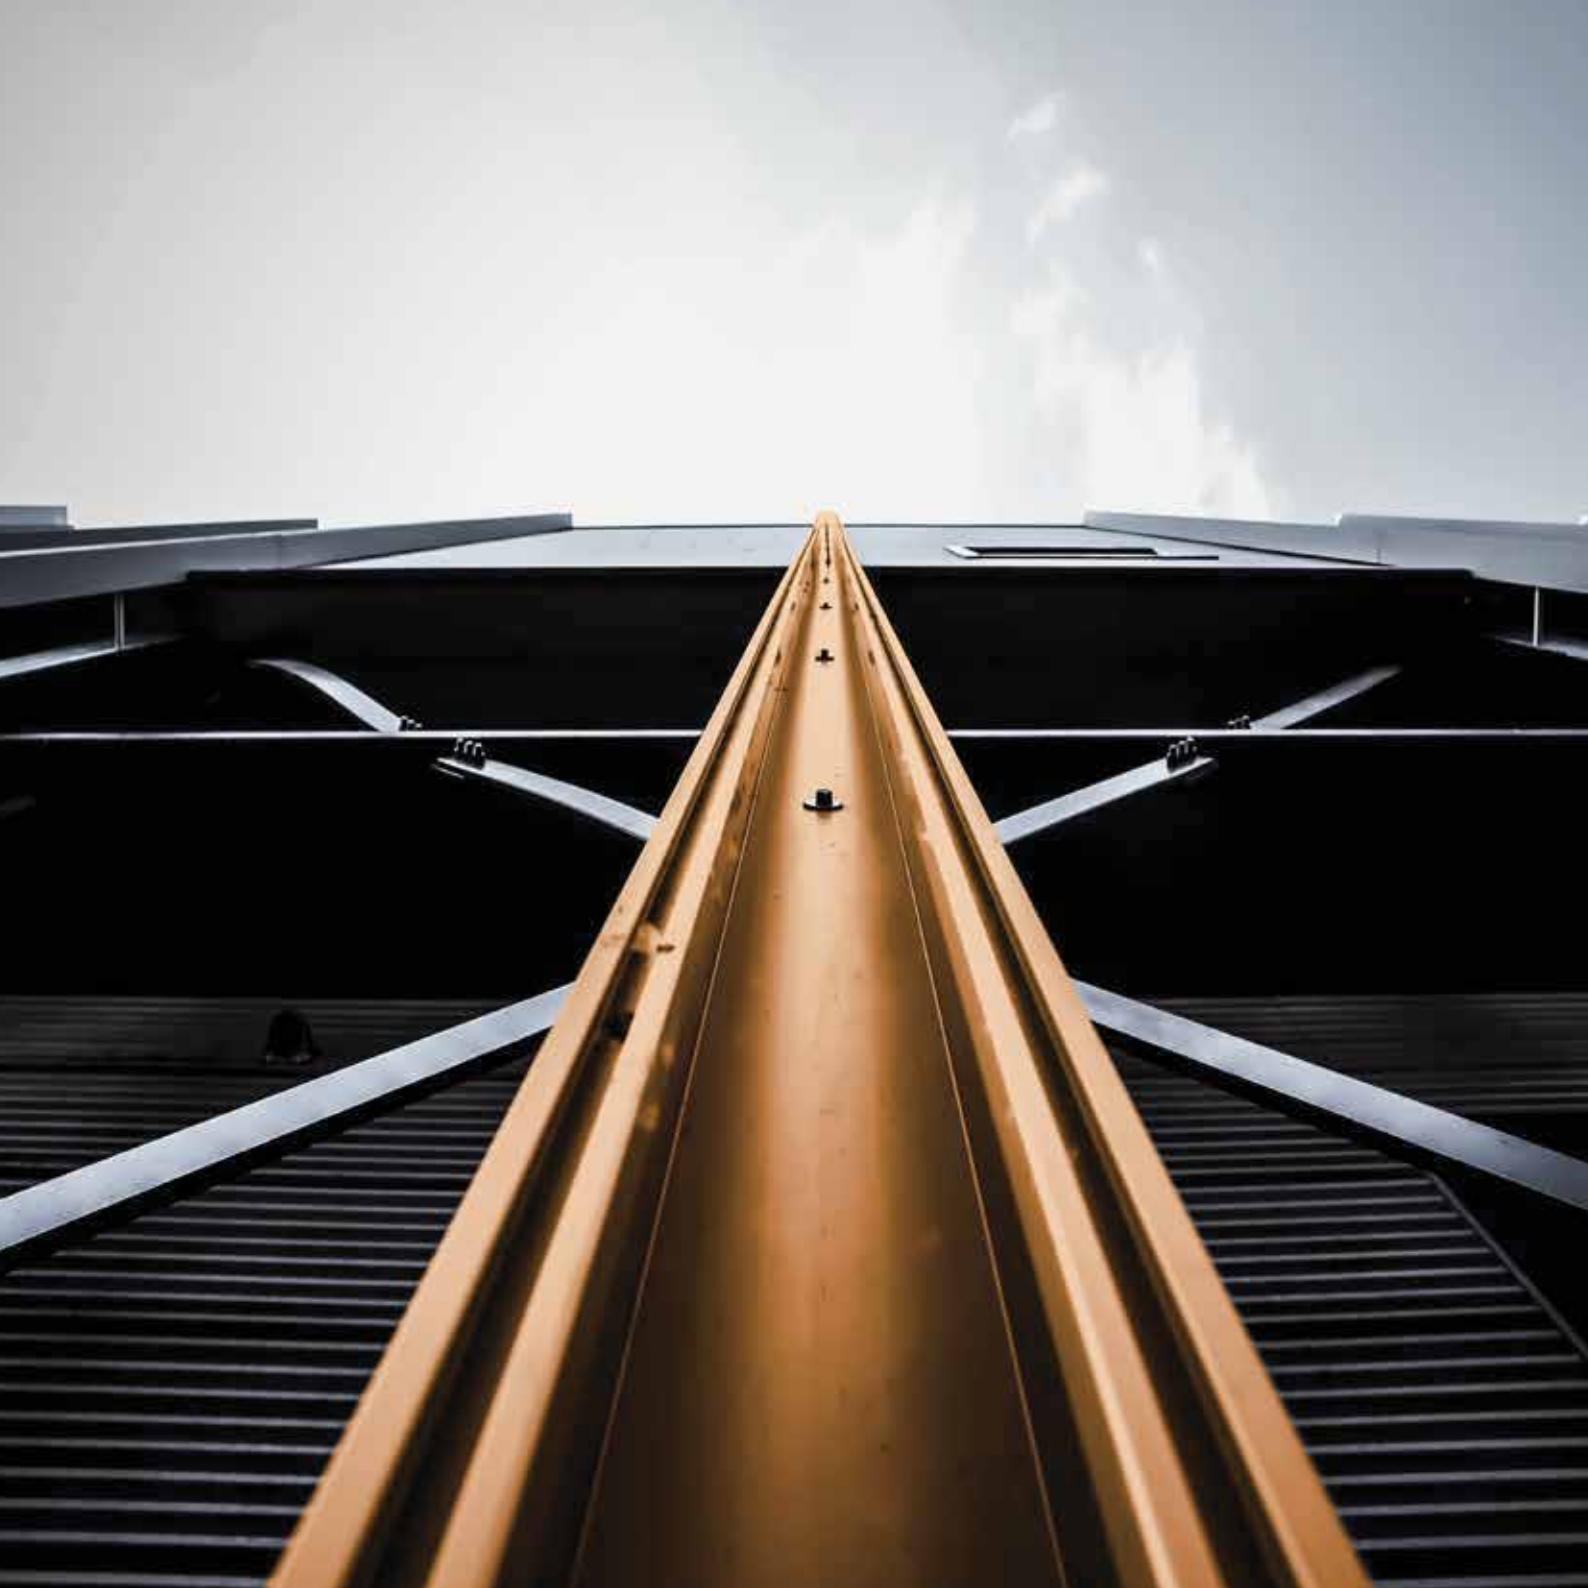

LARGEST STOCKHOLDERS OF STRUCTURAL, STAINLESS, & VALUE ADDED STEEL PRODUCTS

When it comes to the range of stock, we are a hard act to follow. From the common specifications to the hard-to-find ones, our wide range of stock ensures that we meet and exceed all of our customers' diverse needs. DBMSC has provided solutions to the region's industry for well over 5 decades, from supplying pipes for some of the earliest pipelines in the region to developing specialty steels and tools vital to today's transforming infrastructural and real estate advancements. Today, we offer a broad array of products meticulously designed to meet a new generation of challenges and have established enduring buying relationships with leading steel manufacturers worldwide.

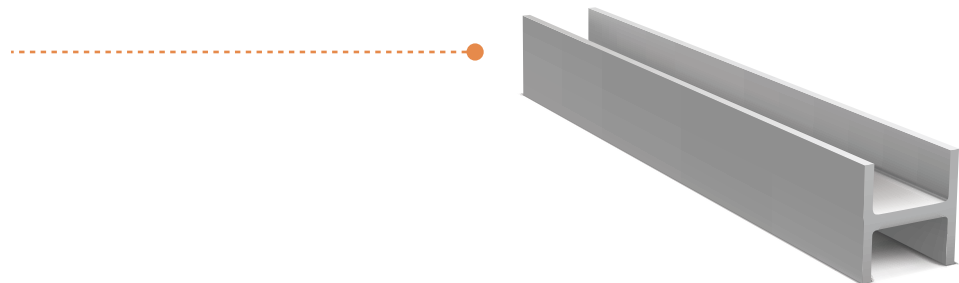

LONGS

Long products include sections, channels, beams, angles, merchant bars, wire rod, special quality bars, rebar, rails, sheet piles, special sections, billets, and blooms.

We are one of the major suppliers of specialty long steel in the region.

We focus on long steel and special steel products, including beams and piling, merchant bar quality, rebar, special bar quality, and wire rod products. We supply the widest range from small to huge beams in sections and a large spectrum of wire rod qualities covering the full range of applications.

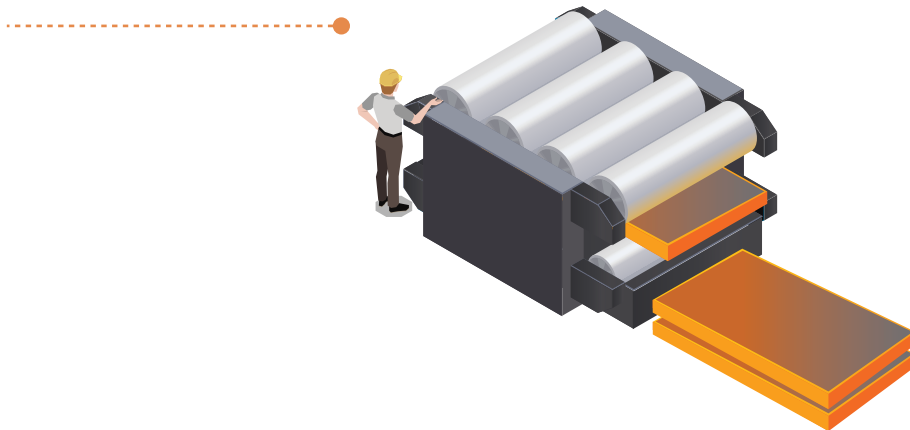

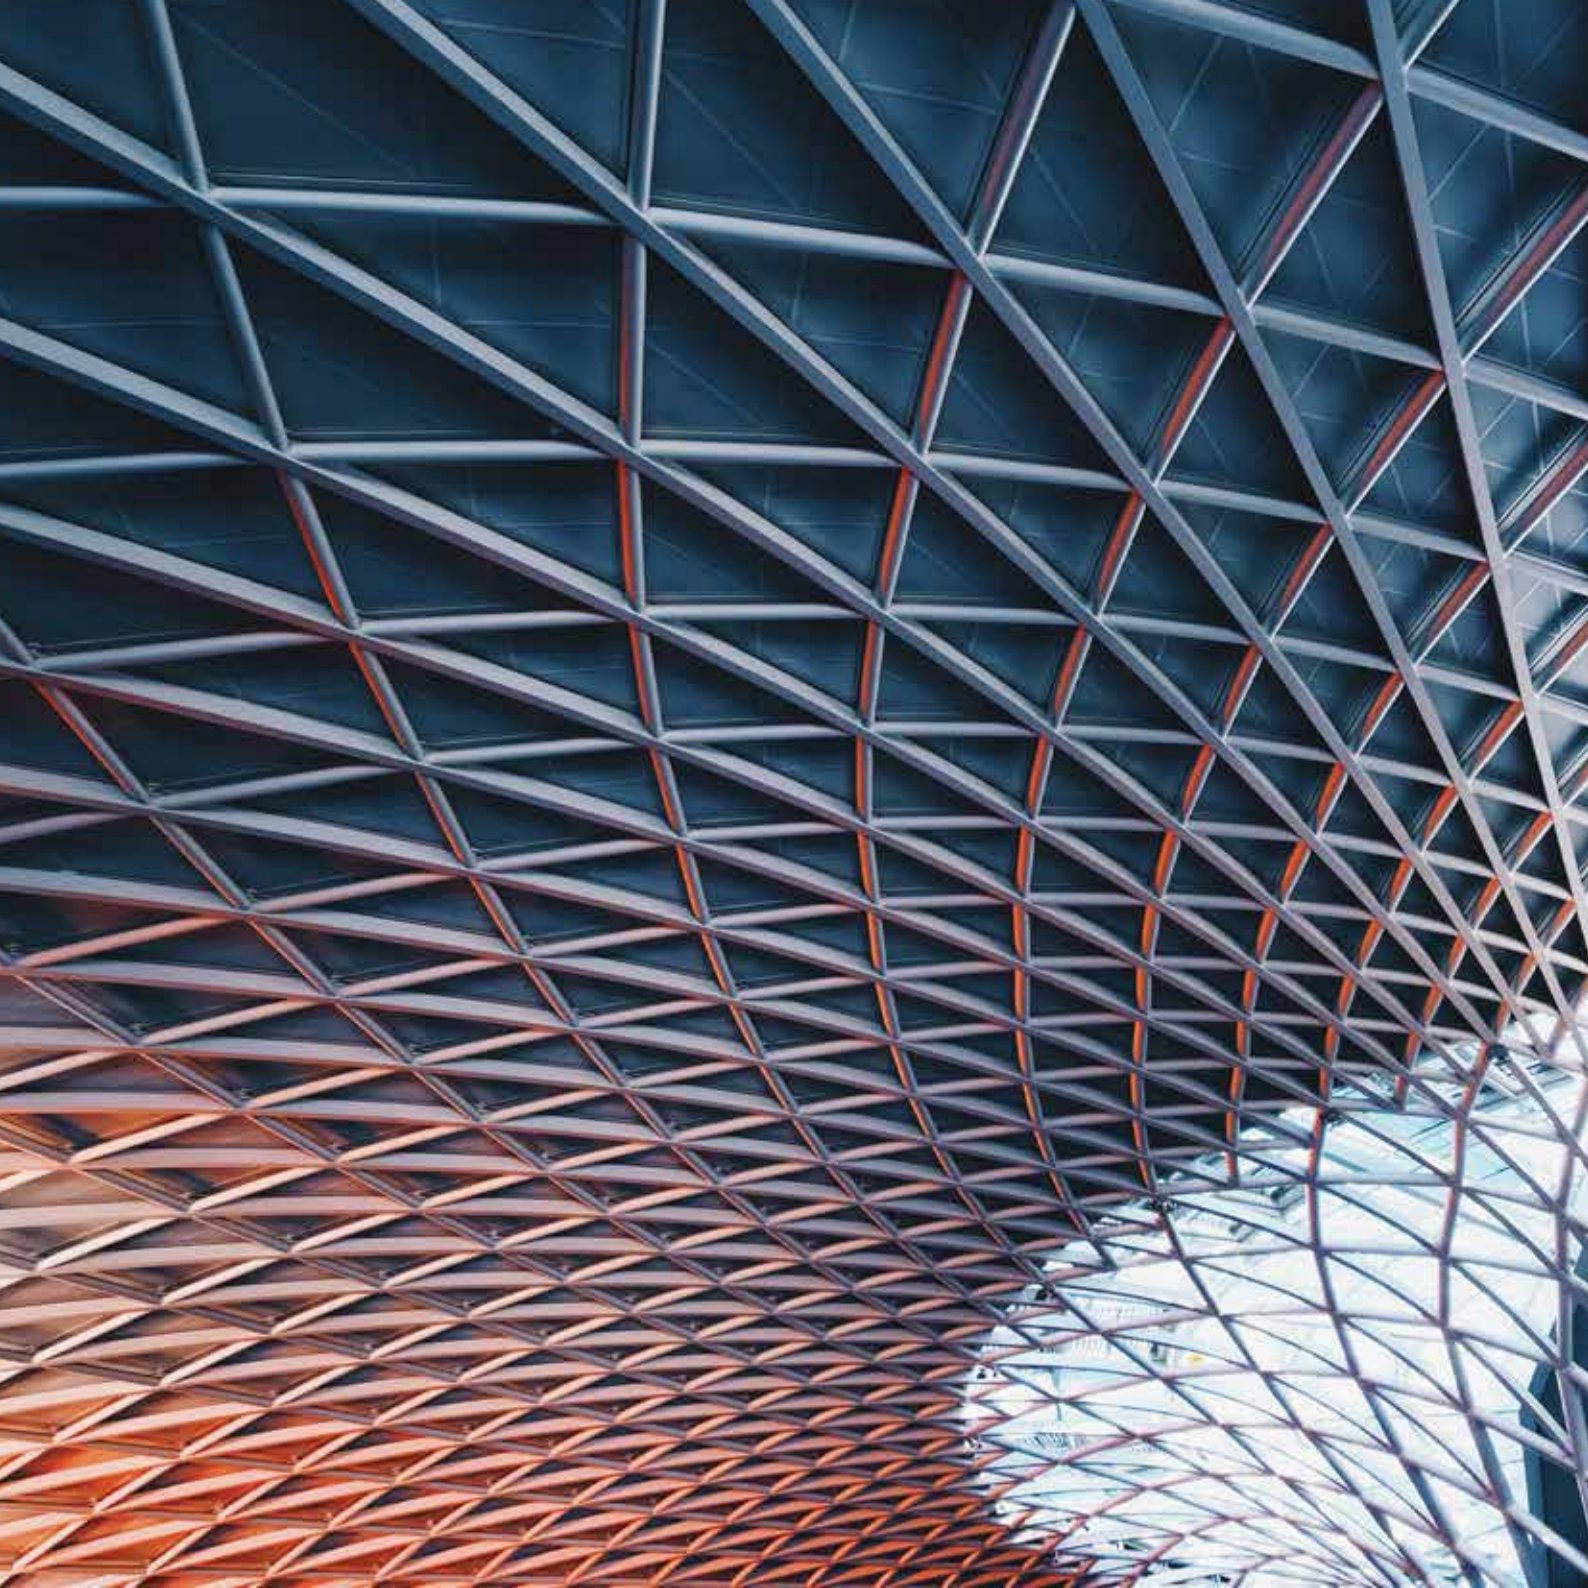

FLATS

Our intricately interwoven sales network diligently caters to a vast customer base across the region, providing impeccable strip steel of superior quality meticulously tailored to their precise specifications.

We supply hot rolled coils, cold rolled coils, coated products, tinplate, plate, alloys, hot dip gal-vanized products, and enamelled and electrical steels.

We cater to a wide range of industries, including packaging, civil engineering, construction, domestic appliances, oil & gas, renewable energies, etc.

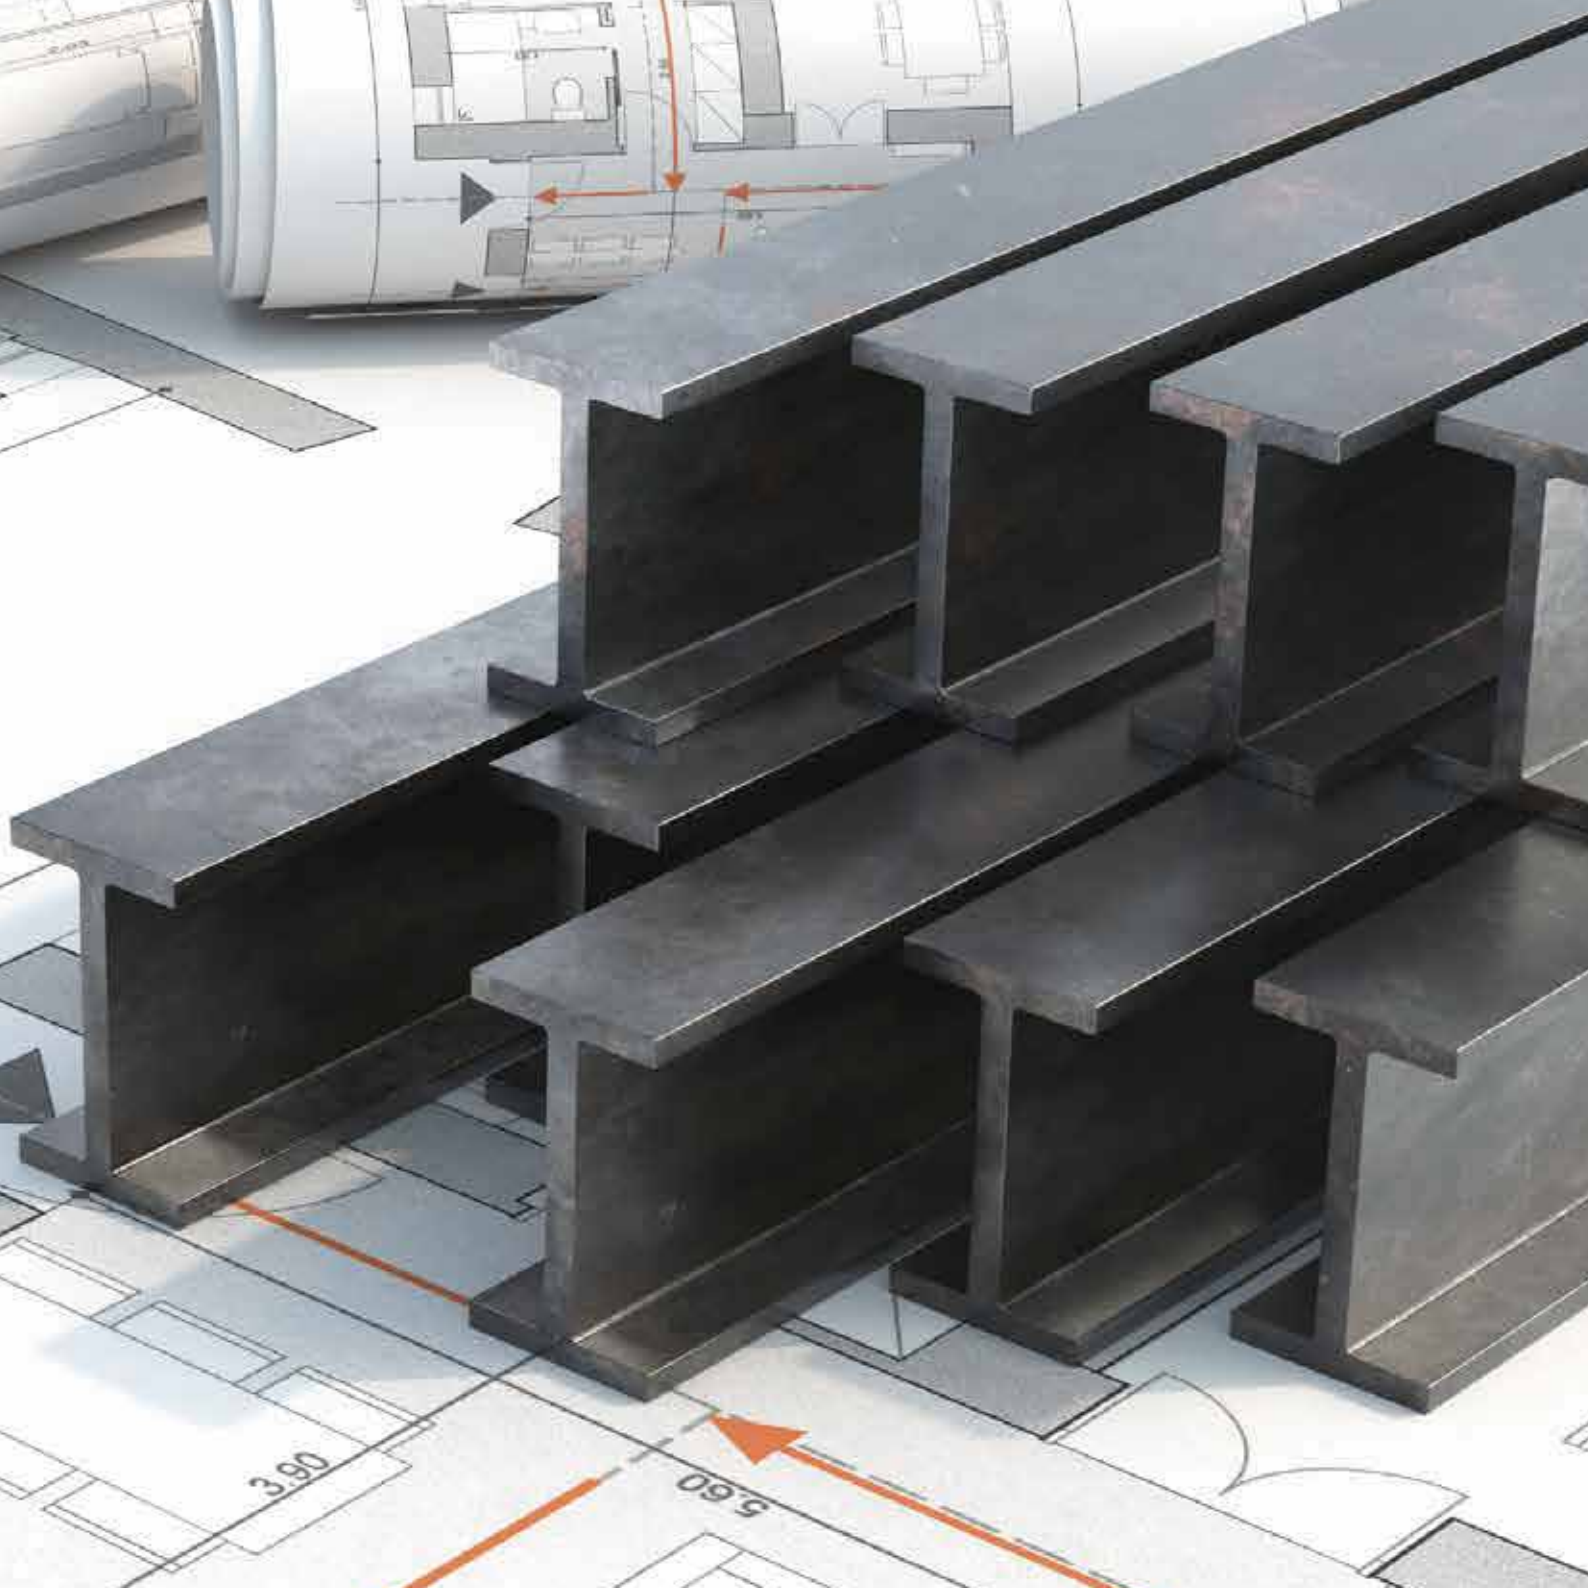

TUBULARS

We provide a diversified range of pipes and tubes that serve diverse markets including energy, construction, and engineering. We have supplied many complex deliveries, including structural tubes and piping systems across the region, including the oil and gas industry.

Our highly efficient operations make us the ideal partner for both large and small pipeline projects in the energy sector. We also supply pipes for piling and structural applications.

We are structural tubular specialists and hold an extensive range of stock in the widest range of sizes, all from quality assured sources.

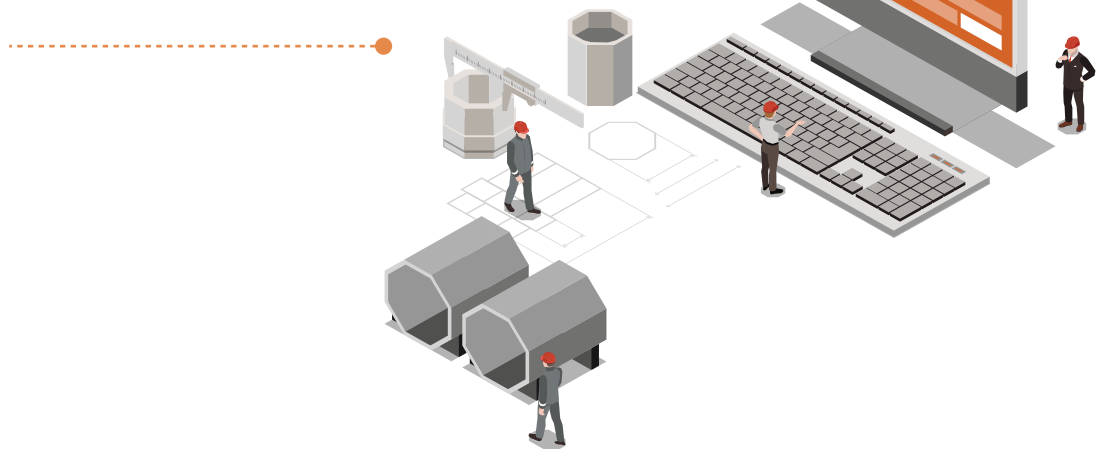

DRIVEN BY QUALITY

Our Management System policies are shaped by our vision. We constantly endeavour to redefine our Quality Management System benchmarks by stretching our limits and going beyond the ordinary. Wherein, Environmental, and Occupational Health & Safety Management System compliance is integrated. Our quality policy extends to the relationship we maintain with our employees, clients and supply chain. We focus on safe work environment that inspires our employees to enhance their skills and we encourage them to follow strict quality guidelines for a quality system, which is directly linked to our success. This results in the high quality of service that we strive to achieve.

At DBMSC, we try and meet the highest international quality standards and comply with the legal requirements and other requirements related to our products and services.

END TO END SOLUTIONS IN STRUCTURAL ENGINEERING

At DBMSC, our solutions are designed to cater to the needs of the Construction
& Onshore, Marine & Offshore, Oil & Gas and Manufacturing Industries.

CONSTRUCTION & ONSHORE

- PETROCHEMICAL COMPLEXES • STEEL, POWER & ALUMINIUM PLANTS • OIL REFINERIES
- AIRPORT TERMINALS & HANGARS • BRIDGES & TUNNELS
 - RAILWAY/METRO STATIONS • HIGH-RISE TOWERS • MANUFACTURING INDUSTRIES

We deliver the widest range of structural, stainless, and value added steel products to various infrastructure industries and provide an extended range of products and solutions for satisfaction of our customer needs.

MARINE

- SHIPBUILDING & REPAIRS • FPSO CONVERSION

DBMSC continuously strives for excellence in regard to high quality and service expectations of our customers in a very competitive sector like the shipbuilding market.

We are associated with a lot of renowned shipbuilders.

OFFSHORE

- FIXED PLATFORMS • JACK UP RIGS • TENSION LEG PLATFORMS
- SEMI-SUBMERSIBLES

Considering that one offshore platform requires 18,000 tonnes of steel, our extensive range of products provides a crucial advantage in the market. We supply steel for everything, from pumps, sucker rods, and storage tanks to drilling rig equipment, refineries, and offshore platforms.
